Letter Of Recommendation

Date...17/9/05.....

It gives me a lot of pleasure to recommend Mr. Sumith Kumar Puri for graduate studies at your esteemed university. Considering all of his personal qualities, I would place him among the top 2% of all the students that I have taught. Sumith has been my student for 4 years. I have taught him various subjects in this period, as listed below:

Object Oriented Programming with C++ in Semester IV.
Analysis & Design of Algorithms in Semester V.
Unix Internals in Semester VI.
Internet Programming in Semester VII.

Sumith is a very sincere and diligent student with sufficient motivation to excel in his chosen field of studies. He has been consistent in his academics, and has secured distinction in six of the eight semesters. He is always attentive to whatever has been taught in the class and well prepared with his course work.

He has also shown an innovative nature and ability to think from a non-conventional point of view. He is well versed in both Java and C++. His analytical skills, combined with his strong programming skills has always placed him at the top of his class for all practical and programming coursework. He presented a technical report and seminar titled "Reverse Engineering of Software Programs" during the final semester of B.E., which requires special mention. He was graded at 48/50 for the same.

Apart from studies, Sumith has also shown a lot of enthusiasm for cultural and extra curricular activities. He was part of the team that organized the fresher's fest and also numerous other intra college events. He was also a regular member of the college cricket team. He has also shown his adeptness at organizational skills. He has a very amicable disposition making him approachable and easy to communicate with.

I very much agree with his decisions to pursue graduate studies and strongly recommend him for admission and suitable financial assistantship at your university.

Sincerely,

H O D OF COMP SCIENCE

Prof. B.I.D. Kumal

Head Of Department

Department of Computer/Information Science & Engineering.
